

Schunk Materials Award 2007

Schunk GmbH is pleased to announce that it will be presenting the Schunk Materials Award 2007 during the Autumn Session of Arbeitskreis Kohlenstoff at Schunk GmbH in Heuchelheim, Germany, on 19 October 2007.

The Schunk Materials Award, amounting to 5.000 €, will be presented to a European researcher, whose work in any field of carbon research - in the opinion of a Technical Committee - is of particular distinction for its scientific value and potential technical application. The award is open to researchers in both industry and academia.

Nominations for this award are solicited and must be received no later than 31 May 2007. They should consist of

- (i) max. five relevant publications (PhD Doctoral thesis or published technical papers) which clearly illustrate the achievements of the candidate,
- (ii) a critical commentary on the work written on behalf on the nominee, and
- (iii) the candidate's Curriculum Vitae.

Self-nominations are also welcome.

Please send your nomination to:

Schunk-Gruppe
